

RAISED ON PORN

DISCUSSION GUIDE

1. What impacted you most about the film?
2. Whose story spoke to you the most and why?
3. What was your biggest takeaway from the film?
4. How would you say porn has harmed you (whether personal, family member, friends, or culture around you)?
5. Have you ever considered that porn consumption, which can lead men to buying sex, is a part of the root cause of sex trafficking?
6. What is a step you can personally take to help protect kids from porn exposure?
7. In the film, former NFL player Don McPherson says:

"In the absence of adults having meaningful, ongoing, open and honest conversations with young people about sexual behaviour, their bodies, intimacy, respecting themselves... that lack of that conversation enables a very one-sided and dangerously one-sided presentation of sexual behavior, which is the one that they have access to, which is very often, pornography."

How does this make you feel about the conversations you are currently having with your kids or the future conversations you want to have with them?

7. Exodus Cry is campaigning for required age verification, with ID, on all sites that host porn to help protect children from underage exposure. As a part of this, they have a petition to sign. Do you think this would be an important regulation to pass?

QUOTES

"The internet has made porn not only accessible, it's really made it inescapable." - Jean Kilbourne, Author of So Sexy So Soon

"The images they're seeing are about sexuality fused to domination... an aggressive sexuality. A sexuality that objectifies women, treats them as nothing more than objects for male pleasure." - Robert Jensen, Author of Pornography and the End of Masculinity

"We are in the midst of the largest, unregulated social experiment in human history." - Ernie Allen, Former President of the National Center for Missing and Exploited Children

"Most porn ends up with women being not only presented as the victims of violence, but often presented as the victims of violence who love it. So girls are learning to be compliant and they're learning that what's most important is to be desirable to the boys - not that their own sexual agency or their own sexual pleasure is important at all."
- Jean Kilbourne, Author of So Sexy so Soon
